

Mau Token

The MAU are coming

Total supply : 100,000,000,000,000

Max supply : 100,000,000,000,000

Circulation : 50,000,000,000,000

Burned token : 50,000,000,000,000

Token name: Egyptian MAU

Token Ticker: MAU

Project website: www.egxmau.com

Token Protocol: BSC

whitepaper v1.3

Egxmau Team

INTRODUCTION

Memecoins are currently seeing a real revival and also long-term potential in the cryptosphere, Dogecoin paving the way. Egyptian MAU, in essence, is a charity token that aims to use the power of crypto and the blockchain to help people make a change in the world. The project was developed to use the influence of memes to bring about this change. We believe the future of finance, economy and politics is decentralization and true democracy. To take away the centralized power of the so-called elites and give it back to the people.

Egyptian MAU (MAU) is a blockchain-powered decentralized platform built on Binance Smart Chain (BSC) Network. MAU's supply is limited to 100T token, it allows users and traders to enjoy the flexibility offered by BSC Network which includes scalability and low transaction fee.

The MAU project stands on three pillars:

- 1- A trading platform
- 2- A wallet that tracks the user's wallet and provides him with his buying and selling information, entry and exit areas, profits and losses
- 3- NFTs platform

WE ARE STARTING WITH CATS RESCUED

CATS NFT'S One of the most exciting projects we have in the roadmap is the Rescued Cats NFT's. We will rescue cats all over the world and turn them into beautiful NFT's people can own on the blockchain — Complete with each rescued cat's name, appearance and their story of where they came from and how they were rescued. The cats are coming. Mau Token aims to be a decentralized, community driven cryptocurrency with a purpose to help cat shelters and charities all over the world. Community driven cryptocurrency also means that we will have a vote staking system, where people can stake their MAU Tokens to take part in polls to choose the direction of our first charity project.

Egyptian MAU NFT's

Our largest project in the works is our NFT marketplace. We will allow users to create and buy/auction their own NFTs and plan to allow users to donate a % to helping save cats.

Value

transparency

MAU is decentralized and supported by its community of enthusiasts. we encourage open communication and believe trust, transparency, and community are the 3 pillars to building longevity

community

MAU is one of the fastest growing and most loved communities in crypto we believe that only together we are strong. community is everything and MAU strive to include everyone from around the globe

Longevity

Egyptian MAU looks forward to a long-term partnership. A significant investment will result from our long-term plan, which is not dependent on temporary trends.

Trust

In cryptocurrency market is paramount. that means full transparency not only in the community and development but also in security efforts

Road map

phase one

- token & contract deployment on the chain
- code audit
- launch website
- cooperation with panckakeswap, Julswap , dexguru & poccoin
- burn up to 50%

phase two

- airdrop platform
- partnership with (coinhunter, coinlist, coinscope & freshcoins)
- listing on well known platform eg (Hotbit, MXC & Gate io)
- trend and token data analysis platform
- coingecko and coinmarketcap listing

phase three

- listing on more exchanges
- MAU swap (Decentralized exchange)
- cooperate with other projects
- reality prediction
- set up more LP

phase four

- 3 more CEX Listing
- MAU Wallet
- MAU Exchange
- 100.000 Holder & 100.000 telegram member

Token distribution

25% Total Supply to be distributed during Token Sale

50% will be sent to burn wallet according to roadmap

8% Total Supply Locked for Marketing and Development (Locked through a smart contract and unlocked as and when required)

5% Total Supply Locked for community airdrop, bounties, incentivizing, and contingencies

5% advisors

2% Total Supply for Early Backers

5% teamwork

Tokenomics

Mau is another digital currency, with a couple of key differences. We want to fix some of the problems—like price volatility—that are common in other digital coins. To do this, We aim to discourage day trading of MAU and to reward long-term holders by charging a 10% fee on each sale. Half of the fees collected are earmarked for existing coin owners, who receive a sort of dividend in the form of additional coins

The goal here is to prevent the larger dips when whales decide to sell their tokens later in the game, which keeps the price from fluctuating as much

Audit

coming soon

COMMUNITY As the central pillar of Egyptian MAU is our community we are represented on all major web platform and channels . Including Telegram, Facebook, Twitter and Reddit.
